

for voluntary association to carry on manufacture, commerce and retail trade where there is no natural monopoly and where their work is fairly established.

"And co-partnership helps greatly to bring about that great essential to human happiness—harmony and peaceful progress!"

FRENCH TWINS RIVAL FAMED SIAMESE PAIR

Susanna and Madeline are the most remarkable babies in the world!

They are twins, tied together, face toward face, by a tissue of flesh in which there seems to be no blood.

They were born six weeks ago at

The tissue-tied twins—Susanna and Madeline.

Champagne, France, and have been attracting the closest attention of the entire flower of the world's medical profession ever since. Theirs is said to be the most astonishing case ever known.

The two wee girls, as shown in the photograph (held in the hands of a nurse), will be for some time com-

pelled to live in the awkward position seen here. But Professor Le Filhate, the noted surgeon and dean of the French Academy of Medicine, declares it will be possible for him to perform an operation which will separate the two youngsters, making them as normal as any human beings.

It will be a bloodless one, as the tissue, in substance, is similar to a lump of fat. It is about three inches long and seven inches in thickness.

THE ORIGINAL SIAMESE TWINS

Eng and Chang, the original Siamese twins, were born in 1811 in Siam,
